

EVOLUTION™ – TL KIT

Thoracolumbar Implant Removal Systems

Second Generation with additional bit/drivers for further hardware removal solutions:

Custom Drivers ♦ Male & Female Hex Drivers ♦ Hexalobes ♦ Broken Screw Extractors

Contact your local Sales Manager or
visit tecomet.com for more information.

Evolution™ -TL Kit Part #: ES30001

Evolution™ kits are designed to remove/revise a wide range of the major thoracolumbar or cervical implant systems on the market. Our comprehensive implant removal systems contain virtually all the bits and instruments that will optimize the surgeon's removal options—based on both procedural and surgical preference. The compact kit design also features StackPak® trays and lids for easy assembly and transportation.

Top tray efficiently organizes standard metric and custom drivers

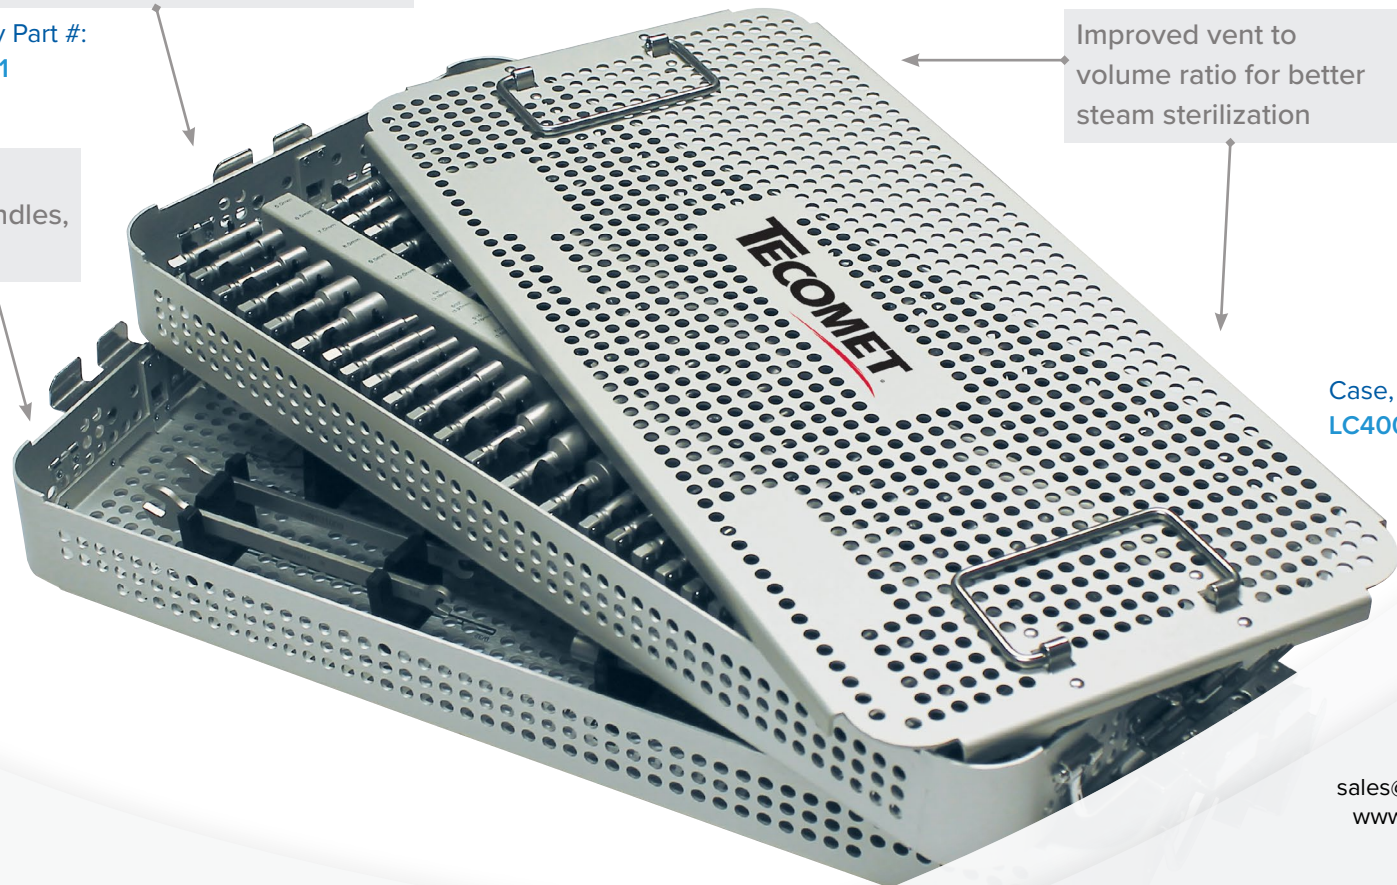

Top Tray Part #:
TY10001

Bottom tray organizes the necessary instruments, handles, extensions, and wrenches

Bottom Tray Part #:
TY10002

Improved vent to volume ratio for better steam sterilization

Case, Lid Part #:
LC40001

EVOLUTION™ – TL KIT
